Colors

Ultra Fencing, Railing, Gates and Designer Accessories are available in six classic colors as well as custom specified hues. All colors are applied with a special Powercoat™ finish to resist harsh weather and heat.

Colors shown represent an approximate comparison and may vary slightly from actual product color.

Finish:

Advanced Powercoat™ allows us to produce a high quality, long lasting finish, which is also environmentally friendly. When applied, Powercoat is twice the thickness and hardness of a typical acrylic, baked enamel, or "wet paint" finish, making it more durable, fade-resistant and scratch-resistant than other coatings.

Materials:

All Ultra fence components are extruded from Ultrum™ 6005-T5 alloy, with a minimum ultimate strength of 35,000 psi. Every fence system is assembled with stainless steel, corrosion resistant fasteners, with heads painted to match the finish of the fence. Ultra carries posts in a variety of thicknesses, punched to accept the channel on the fence. Designer Accessories are zinc die cast aluminum. All Designer Accessories are Powercoat™ finished.

Ultra Aluminum Lifetime Warranty

Ultra Aluminum fence and railing products are guaranteed for life against defects in workmanship and/or materials. The Powercoat™ finish on all fencing and railing by Ultra Aluminum is unconditionally guaranteed for life against cracking, peeling or chipping. **Visit our website for more information and a copy of the warranty.**

Environmentally Responsible

Ultra is proud to use recycled aluminum in our products. Aluminum is the most commonly recycled metal in the world. Our Powercoat™ coating process is environmentally friendly and virtually pollution-free.

Design Options

Ultra Fencing is available in a wide selection of design configurations.
